Hello,

Thank you for finding a time for the ADR meeting that works with the board. Our group is capable of meeting at that time as well. I note from the April Newsletter that a board meeting is tentatively scheduled for one hour later on the same day. As you're aware, something we're asking for is a public retraction of Board statements - which would naturally include a statement at that board meeting. I would hope that the board meeting is scheduled with sufficient time to consider and present such a statement. It would be counterproductive if the schedule became a constraint on what we can achieve at the ADR meeting.

We accept April 29th at 4pm MT for the ADR meeting.
